Association Membership Criteria:

Full Membership requires a valid Polish license. The precondition for this is criminal records check by police as the issuing authority. The membership is also informed of applications by candidates for membership and asked if they know of any negative reputational information that might adversely affect the Association should they be admitted.

Comments on Association Activities, if any:

PSLD constantly supervises the activity of all companies in the detective sector. Complaints about all detectives' actions are also monitored and recorded, and injured people are instructed on how to proceed in a given situation. The president of PSLD acts as an expert in court cases, resolving disputes arising between clients and detective companies. Training is constantly organized for PSLD members to improve their skills. Next year, the association's authorities are scheduled to meet at the IKD meeting.

Total No. of Members: 40

Is there a Government License? :	YES
If yes, under what authority? :	Police
Name of Licensing Regulator:	Ministry of Interior
If no, is regulation proposed? :	n/a
Have the regulations for licensing been altered since 2013?	YES
If yes, specify:	

From January 2014, detectives professionalism will no longer be checked. As a result of the deregulation of the Detective Services Act, the state licensing examination was abolished, and the training itself does not guarantee adequate knowledge of the detective.

Comments on Regulation, if any:

Regulations have resulted in a significant increase in companies providing detective services. Unfortunately, it can be assumed that more than half of them do not know the law and act without respect for ethics, often performing illegal activities.
